Professional Summary

Senior Full Stack Engineer with 15 years of hands-on software engineering experience building scalable web and mobile applications. Passionate about AI-accelerated software development—leveraging modern AI tooling to ship faster while applying the architectural rigor, security practices, and production discipline of a seasoned engineer. I have developed an end-to-end AI-automated software development workflow using Cursor Automations. Experienced across SaaS, Streaming Media, HealthTech, Insurance, Social Media, and E-commerce. Strong background in Node.js, React, React Native, cloud-native systems, Kubernetes, CI/CD, and Infrastructure as Code.

Technical Skills

Languages: TypeScript, JavaScript, C#, F#

Frontend: React, React Native, AngularJS, Redux, Tailwind CSS, Material UI, HTML5, CSS3

Backend: Node.js, GraphQL, Hono, Socket.io, REST APIs, Firebase

Cloud & DevOps: Docker, Kubernetes, Azure, AWS, Terraform, Helm, FluxCD, GitHub Actions, CircleCI, Cloudflare Workers, Vercel

Databases: Firestore, PostgreSQL, MySQL, Drizzle ORM, Prisma

AI & Workflow: End-to-end AI-automated software development workflow (Cursor Automations), AI-assisted development (Cursor, LLM tooling), prompt-driven iteration with engineering review, AI-accelerated prototyping

Professional Experience

Senior Full Stack Developer | CCTalent

Clark Freeport Zone, Pampanga · Feb 2025 – July 2026

- Designed and implemented an end-to-end AI-automated software development workflow using Cursor Automations, accelerating feature delivery while maintaining engineering quality and production standards.
- Managed Kubernetes-based production environments on Azure, resolving production incidents and implementing configuration changes across containerized applications with minimal downtime.
- Owned GitOps and Infrastructure as Code workflows using FluxCD, Terraform, and Helm to deliver consistent, repeatable, and reliable deployments.
- Optimized integration tests and CI/CD pipelines, reducing build bottlenecks and improving developer productivity and deployment efficiency.

Tech: Docker, Kubernetes, Azure, AngularJS, Node.js, FluxCD, Terraform, Helm

Senior Full Stack Developer | Lions and Legacy

BGC, NCR · Sep 2024 – Feb 2025

- Built and delivered web and mobile applications using React, React Native, and Node.js, contributing across the full software development lifecycle from implementation to production deployment.
- Developed scalable backend APIs on Cloudflare Workers using Hono and Drizzle ORM, enabling low-latency serverless services.
- Implemented real-time chat, notifications, and commenting features using Socket.io to enhance user engagement and collaboration.
- Integrated secure subscription and payment processing into the iPerform platform, enabling recurring billing and a seamless purchase experience.
- Deployed and maintained applications on Vercel with modern CI/CD workflows, ensuring reliable and efficient releases.

Tech: React, React Native, Node.js, Cloudflare Workers, Socket.io, Vercel

Senior Developer | Coherent Global

Makati City, NCR · Jan 2021 – Oct 2024

- Resolved production incidents across React.js, Node.js, C#, and F# services.
- Developed frontend and backend features and enhancements for a microservices-based SaaS platform.
- Improved the security and stability of container images deployed to Azure Kubernetes Service (AKS).
- Diagnosed and mitigated Kubernetes infrastructure and deployment issues.
- Collaborated with engineering teams to coordinate incident response and deliver production-ready solutions.
- Supported CI/CD pipelines and deployment processes to ensure reliable software releases.

Tech: Node.js, React, Docker, Kubernetes, Helm, C#, F#, GitHub Actions

React Native Developer | Get Devs

Makati City, NCR · Aug 2017 – Jun 2020

- Architected and built a React Native IPTV application from the ground up.
- Collaborated on backend design using GraphQL, Redux-saga, and Firebase.

Tech: React Native, GraphQL, Redux, Firebase,

Earlier Experience (2013–2020)

Senior Front-end Developer at Site Skills Training · Front-end Developer at Linkage Web Development
