Professional Summary

Senior Full Stack Engineer with 14+ years of hands-on software engineering experience building scalable web and mobile applications. Passionate about AI-accelerated software development - leveraging modern AI tooling to ship faster while applying the architectural rigor, security practices, and production discipline of a seasoned engineer. Experienced across SaaS, Streaming Media, HealthTech, Insurance, Social Media, and E-commerce. Strong background in Node.js, React, React Native, cloud-native systems, Kubernetes, CI/CD, and Infrastructure as Code.

Technical Skills

Languages: TypeScript, JavaScript, C#, F#

Frontend: React, React Native, AngularJS, Redux, HTML5, CSS3

Backend: Node.js, GraphQL, Hono, Socket.io, REST APIs

Cloud and DevOps: Docker, Kubernetes, Azure, AWS, Terraform, Helm, FluxCD, GitHub Actions, CircleCI, Cloudflare Workers, Vercel

Databases: Firebase, Drizzle ORM, Prisma

AI and Workflow: AI-assisted development (Cursor, LLM tooling), prompt-driven iteration with engineering review, AI-accelerated prototyping to production hardening

Tools: Git, Linux, Trivy

Professional Experience

Senior Full Stack Developer | CCTalent

Feb 2025 - Present

- Maintain Kubernetes-based production deployments on Azure, resolving incidents and configuration changes across containerized workloads.
- Manage infrastructure as code with FluxCD, Terraform, and Helm for reliable, repeatable releases.
- Troubleshoot full-stack bugs to uphold security, stability, performance, and user experience.
- Optimize slow integration tests and CI/CD pipelines to improve build performance and reduce deployment times.

Senior Full Stack Developer | Lions and Legacy

Sep 2024 - Feb 2025

- Built web and mobile applications with React, React Native, and Node.js.
- Implemented real-time chat, notifications, and commenting with Socket.io.
- Developed scalable backend APIs on Cloudflare Workers using Hono and Drizzle ORM.
- Deployed applications to Vercel with modern CI/CD workflows.

Senior Developer | Coherent Global

Sep 2022 - Oct 2024

- Maintained production web applications and proactively managed production incidents.
- Hardened container image builds and dependencies with Trivy for Kubernetes client deployments.
- Owned CI/CD pipelines with GitHub Actions and CircleCI across Linux-based infrastructure.

Senior Software Developer | Deluge Technology Corporation

Oct 2020 - Jan 2022

- Architected and built a React Native IPTV application from the ground up.
- Collaborated on backend design using GraphQL, Redux-saga, and Firebase.

Earlier Experience (2013-2020): React Native Developer - GetDevs; Senior Web Developer - Boomerang Inc.; Senior Front-end Developer - Site Skills Training; Front-end Developer - Linkage Web Development
